

Amendments to the Specification:

Please replace the paragraph on page 11, lines 16-21 of the Specification with the following paragraph:

The vent cover 100 of the first embodiment is formed as a split ring having a planar, ring-shaped bottom wall 102. The bottom wall 102 has an inner peripheral portion 104 that defines a circular central opening 106 in the bottom wall. The bottom wall also has an outer peripheral portion 108 (Fig. 4).
